

Inclusive Education

Erasmus+ Course

Course overview

No one is special and yet everyone is. Our course is dealing with delicate topics of the 21st century. Fortunately, our society got rid of most prejudices from the past, so we can face this – in reality non-existing – issues better.

Come and learn how to make feel every one of your students welcome to the classroom. No differentiation because we all share the same Sun.

Application form relevant topics

Inclusion – equity, Access for disadvantaged, Disabilities - special needs

Course Methodology

For your comfort we divided our course in 10 modules. One linked to another. Inspired by the best and newest theories our teachers will share their knowledge with you. You will learn the difference between the integration and the inclusion, all about the risks and barriers. Also, how to manage conflict in your classroom and much more.

Modules

Module 01 – Integration or inclusion, identification of risk factors and barriers

Module 02 – Non-violent communication, conflict management, communication methods

Module 03 – Values education, moral education

Module 04 – Student assessment and evaluation

Module 05 – Psycho-social development

Module 06 – Positive school climate

Module 07 – Drama and Art activities

Module 08 – Project-based learning, task-based learning

Module 09 – Cross-curricular activities in an inclusive classroom

Module 10 – Adapting the curriculum in an inclusive classroom

Guided City Tour

Learning outcomes

Understand the advantages and disadvantages of approaches such as inclusion, integration and mainstreaming in order to enhance good quality of education and training for all learners.

Develop students learning autonomy by self-directed hands-on learning approach, elaborate on student's prior knowledge, trigger an effective use of arguments and evidence, use questioning as a tool of learning.

Implement and evaluate appropriate action strategies according to student needs in order to prevent bias, school dropouts and anti-social behaviour of learners.

To encourage exploring the obstacles and limits that handicapped students faces within the education system.

Apply art & creativity to work with people with physical (dis)abilities.

Understand the meaning of the "pedagogy of everyday life" for the people with mental health conditions.

Gain techniques for working with heterogeneous classrooms and communities, deal with increased diversity of learners, support inclusion of various minorities into mainstream education.

Meet colleagues of different nationalities within the EU, engage in cross-cultural learning experience, exchange ideas and build a network for future international cooperation.

Gain broader understanding of practices, policies and systems of education of different countries, cultivate mutual respect, intercultural awareness and embed common educational and training values.

Enrich communication skills, improve foreign language competencies, broaden professional vocabulary and promote EU's broad linguistic diversity.
